From the Editor

An important mission of the College is to encourage and to organize continuous medical education activities in cardiovascular medicine for its members. Keeping abreast with the development of medical practice is vital in the delivery of high-quality patient care. It also enables patients under our management not to be denied of the advancement in medical practice that could relieve their sufferings or improve their longevity.

With such, the College has a number of scientific meetings in this year. The CardioRhythm 2011 was just successfully concluded. It was co-organized with the Chinese Society of Pacing and Electrophysiology, and is a major scientific meeting in cardiac arrhythmia in this part of China and South East Asia.

Coming up for the rest of the year are a number of scientific meetings reported in this Newsletter. It could be noted that other than the Annual Scientific Meeting, the rest of these scientific meetings are held in collaboration with other medical professional organizations, including the Hong Kong College of Radiology, and the cardiac societies of various provinces of southern China and of Macau.

The College is always delighted to cooperate with other professional institutes for the purpose of medical education, with the firm belief that this would ultimately benefit the patients, whether they are under the care of cardiovascular medical professionals or medical professionals in other specialties. Likewise, members of the College had participated as speakers in the scientific session of Hong Kong Doctors Union, and as speaker and examination advisor in cardiopulmonary resuscitation of Hong Kong College of Family Physicians, though the target audiences are not cardiovascular medical professionals. The College would be reluctant to exclude, and bewildered to be excluded by, other organizations with such mutual objective from medical education and professional development activities.

Coming up are also community activities, the Jump Rope for Heart and the World Heart Day. Members will be informed of further details when available.

Local Scientific Activities

HKDU Sunday Afternoon Symposium, 16 January 2011

The College was invited by the Hong Kong Doctors Union to co-organize the HKDU Sunday Afternoon Symposium focused on Cardiology on 16 January 2011. It was held at the Lecture Hall, 8/F, Block G, Princess Margaret Hospital. The representatives of the College and topics of their lectures are:

1. Dr. AU Wing Kuk, Tim
   - Surgical treatment for atrial fibrillation and latest update in heart valve surgery
2. Dr. CHAN Wai Kwong
   - Approach to patient with chest pain
3. Dr. MAK Yiu Kwong, Gary
   - Impact of early disease detection in prevention of cardiovascular disease
4. Dr. TSUI Ping Tim
   - Anti-thrombotic therapy - one dose for all or personalized medicine

The meeting was well attended by 283 participants. Most of them being general practitioners, and some being family physicians or specialists. Judging from the enthusiastic discussion following the lectures, the speakers and topics were well received.
Modern Management of Complicated Hypertension – Triple Combination & Beyond, 22 February 2011

The above scientific meeting was held at 1-3p.m., on Tuesday, 22 February 2011, at Langham Hotel, Tsim Sha Tsui, Kowloon. The speaker was Prof. Gordon T. MCLNNES, Senior Lecturer and Honorary Consultant Physician, Western Infirmary, University of Glasgow, Glasgow, UK. It was chaired by Dr. WONG Cho Yiu, Peter, Distinguished Fellow, Hong Kong College of Cardiology.

Well control of hypertension could minimize or prevent its complication. Most hypertension studies show that many hypertensive patients do not have their blood pressure adequately managed. Often, two to three hypertensive drugs are needed to lower the high blood pressure to a satisfactory level. An ideal hypertensive drug should not only be effective in lowering the high blood pressure, it should also be free from serious side effects and convenient for the patient to take. Combination of certain hypertensive medications could have synergistic effect and minimize the side effect of each individual medication. Fixed dose combination into a single pill could encourage compliance.

The meeting was attended by around 60 medical practitioners.
CardioRhythm 2011, 25-27 February 2011

This was the third time that the Hong Kong College of Cardiology and the Chinese Society of Pacing and Electrophysiology “CSPE” joined hands again to host CardioRhythm 2011. It was held on 25-27 February 2011 at the Hong Kong Convention and Exhibition Centre.

The Co-Chairmen were Prof. LAU Chu Pak from the Hong Kong College of Cardiology and Prof. ZHANG Shu from the Chinese Society of Pacing and Electrophysiology. The Honorary Presidents were Dr. CHEN Ming Zhe, Dr. CHENG Chun Ho, Dr. CHIANG Chung Seung, Prof. GAO Run Lin, Dr. HU Da Yi, Dr. HUANG De Jia, Dr. KO Tak Him, Patrick, Dr. PUN Chiu On, Dr. TSE Tak Fu and Prof. WANG Fang Zheng.

There were nearly 2,000 participants from 47 countries/regions in the conference. With over 300 faculty members from both local and overseas, a high-level conference with 99 sessions of lectures, case presentations and workshops focusing in Electrophysiology, Cardiac Pacing, Devices, Atrial Fibrillation, Ablation, Heart Failure, Sudden Death, Arrhythmia Management, Syncope, Bradycardia Pacing and Tachycardia Therapy Device were developed and presented. Some of these were presented as joint symposium with Heart Rhythm Society, SOLAEC, ISHNE, Asian Pacific Heart Rhythm Society, World Society of Arrhythmias, Hong Kong Medical Association, Hong Kong Doctors Union, Hong Kong College of Family Physicians, The Society of Physicians of Hong Kong, Hong Kong College of Anaesthesiologists and Hong Kong Cardiac Nursing Association.

Having a good response in year 2009, the Certificate Course of Cardiac Rhythm Management was organized again on 24-27 February 2011. It was well attended by medical practitioners and allied professionals, covering all aspects of arrhythmia management. Other highlights of CardioRhythm 2011 included oral abstracts and posters from all over the world, as well as showcase of state-of-the-art products and technology in the exhibition.

We were honored to have Dr. York CHOW, Secretary for Food and Health Bureau, HKSAR, Mr YANG Min, Deputy Secretary General of Chinese Medical Association and Prof. Raymond LIANG, President of Hong Kong Academy of Medicine to be our Guests of Honor at the opening ceremony.
on 25 February 2011. The Sun Chieh Yeh Heart Foundation Lecture was delivered after the Opening Ceremony. It was presented by Prof. Douglas Zipes. The topic was “Autonomic Influence and Modulation on Arrhythmia and Heart Failure”. Faculty Dinner was also held at Dynasty Club after the lecture. Nearly 60 faculties including CSPE members were invited to join.

The main highlight of social function was the Gala Dinner, supported by Meetings & Exhibitions Hong Kong (MEHK), a division of Hong Kong Tourism Board (HKTB). It was held on 26 February 2011 at Cafe Deco, the Peak. Nearly 300 faculties and guests attended the dinner. The most exciting part was lucky draw, with gifts donated by the College and sponsors.

During the dinner, there were prize presentations for Best Paper Award and Young Investigator Award, and souvenirs were also presented to supporting parties.
**Winners of Best Paper Award were:**

1. Rong BAI, Luigi Di BIASE, Pasquale SANTANGELI, Luis Carlos SAENZ, Atul VERMA, Javier SANCHEZ, Claudio TONDO, Andrea NATALE, Texas Cardiac Arrhythmia Institute, St. David’s Medical Center, Austin, Texas, USA
   Endo-epicardial substrate based mapping and ablation of ventricular arrhythmias improved arrhythmia-free survival in patients with right ventricular cardiomyopathy/dysplasia

2. Luigi Di BIASE, Pasquale SANTANGELI, Rong BAI, Luis Carlos SAENZ, Atul VERMA, Javier SANCHEZ, Claudio TONDO, Andrea NATALE, Texas Cardiac Arrhythmia Institute, St. David’s Medical Center, Austin, Texas, USA
   Premature ventricular complex predicts recurrence of ventricular arrhythmia after ablation in patients with right ventricular cardiomyopathy/dysplasia

3. Akinori SATO, Yasuhiro TANABE, Yuka HAYASHI, Tsuyoshi YOSHIDA, Eiichi ITO, Masaomi CHINUSHI, Kanae HASEGAWA, Nobue YAGIHARA, Kenichi ILJIMA, Daisuke IZUMI, Hiroshi WATANABE, Hiroshi FURUSHIMA, Yoshifusa AIZAWA, Divisions of Cardiology, Niigata University Graduate School of Medical and Dental Sciences, Niigata, Japan
   Is J Wave related to ischemia-induced ventricular fibrillation?

**Winners of Young Investigator Award were:**

1. Xiaobin LUO, Zhengwei PAN, Jiening XIAO, Jianchun ZHANG, Yanjie LU, Baofeng YANG, Zhiguo WANG, Research Center, Montreal Heart Institute, University of Montreal, Montreal, Canada
   Critical role of microRNA miR-26 in atrial electrical remodeling in experimental atrial fibrillation

2. Luís Ferreira SANTOS, Telmo PEREIRA, Bruno RODRIGUES, Emanuel CORREIA, Davide MOREIRA, Joana VIDINHA, Luís NUNES, António COSTA, José MACHADO, Sírgio CASTEDO, Oliveira SANTOS, Cardiology Department, Sao Teotonio Hospital, Portugal
   Is there a signal-averaged ECG phenotype in patients with Brugada syndrome?

3. WB NICOLSON, S KUNDU, N TYAGI, PDS MEATCHER, S YUSUF, M JEILAN, PJ STAFFORD, AJ SANDILANDS, I LOKE, GA NG, Cardiovascular Sciences Department, Leicester Cardiovascular Biomedical Research Unit, Leicester, UK
   Pilot study exploring the regional repolarization instability index in relation to myocardial heterogeneity and prediction of ventricular arrhythmia and death.

**Winner of Best Paper Award (CSPE):**

1. Jun LIU, Pi-hua FANG, Samer DIBS, Yu HOU, Xiao-feng LI, Shu ZHANG, Center for Arrhythmia Diagnosis and Treatment, Fuwai Hospital, Beijing, China
   High-sensitivity C-reactive protein as a predictor of atrial fibrillation recurrence after primary circumferential pulmonary vein isolation.
Winner of Young Investigator Award (CSPE):

1. Shengbo YU, Qingyan ZHAO, He HUANG, DongE CHEN, Hongying CUI, Xicheng HONG, Mu QIN, Mohamed SALIM, Congxin HUANG, Cardiovascular Research Institute, Renmin Hospital of Wuhan University, Wuhan, China

Prognostic value of premature ventricular contraction originating from different location for patients with chronic heart failure.

Tailor-made webpage, editorials and daily newspapers of the Conference were arranged by 365heart.com and ELSEVIER, reporting on activities of the conference. Meeting coverage was conducted by face-to-face interviews with organizers, speakers, faculties and participants. The circulations were 6,000 in 3 days. Moreover, a press conference regarding sudden death was held on 27 February 2011, and quite a number of news clippings were shown at local newspaper and internet.

Press Conference (Left to Right): Dr. Kathy LEE and Prof. Arthur MOSS
19th Annual Scientific Congress, 29 April-1 May 2011

The Annual Scientific Congress of Hong Kong College of Cardiology is coming to the nineteenth year. The College would like to extend its sincere appreciation to all its members for their continuous support of this Congress. This year, the Congress will be held on 29 April to 1 May 2011 at Sheraton Hong Kong Hotel & Towers, Tsim Sha Tsui, Kowloon. Renowned cardiologists from local and overseas are invited to present their original research findings and expert reviews on advances in cardiovascular medicine. The deadline for abstract submission was 1 March 2011 and 48 abstracts have been received.

Programme Highlights

Plenary Lectures and Symposia
Meet-the-expert Practical Sessions
Allied Cardiovascular Health Professionals Symposium
Free Paper Sessions
Poster Sessions

Preliminary Programme

5th Congress of Asian Society of Cardiovascular Imaging (ASCI), 17-19 June 2011

The 5th Congress of Asian Society of Cardiovascular Imaging (ASCI 2011) is co-organized by the College and the Hong Kong College of Radiologists. A Pre-Meeting was held on 14-15 January 2011. Total 8 ASCI officers including the secretary visited the Hong Kong Convention and Exhibition Centre for site survey, followed immediately by the Pre-Meeting at Hong Kong Academy of Medicine Jockey Club Building. It was very fruitful and constructive. The comments and inputs from ASCI officers have been invaluable and were instrumental to the success of the ASCI 2011.

Cardiovascular Interventional Summit 2011 (CIS), 19-20 November 2011

In collaboration with Guangdong Provincial Cardiovascular Association and the Southern China Interventional Cardiology Education Net, the Summit is planned to take place on 19-20 November 2011 at the Hong Kong Convention and Exhibition Centre. Members will be informed of further details when available.
**International Scientific Conferences**

**13th South China International Congress of Cardiology, 7-10 April 2011**

The 13th South China International Congress of Cardiology will be held from 7-10 April 2011 at Dongfang hotel, Guangzhou, China. It is the biggest and most well attended cardiology congress in this part of China. The College is one of the co-organizers of this Congress.

The Opening Ceremony and Welcome Dinner will be held at China Hotel on 8 April 2011 evening. The HKCC Dinner for our members and spouses is scheduled on Saturday evening, 9 April 2011 at South Sea Fishing Village. About 30 members of the College have registered for the Congress, as speakers, chairpersons, and participants. Most of the Hong Kong delegation will depart from Hunghom Railway Station at 19:24 hours on 8 April, and will leave Guangzhou East Railway Station at 15:31 hours on 10 April 2011. The Hong Kong delegation will stay at China Hotel.

For more details of this congress, please visit: [http://www.sc-icc.com/](http://www.sc-icc.com/)

Community Activities

World Heart Day 2011

The World Heart Federation has announced that the theme for 2011 World Heart Day activities is:

“One World, One Home, One Heart”.

One World:

With the UN summit on Non-Communicable Disease (NCDs) taking place just before World Heart Day, there is momentous opportunity to communicate the messages about NCD Summit outcomes and the importance of elevating NCDs up the global health agenda, within the World Heart Day activity. The “One World” theme incorporates this global goal.

One Home:

Individuals are called on to reduce their and their family’s risk of heart disease and stroke, by sharing the steps that can be taken to improve heart health at home (such as improving diet and physical activity).

One Heart:

As always, the emphasis will be on improving heart health across all nations.

The local activities of World Heart Day will span throughout the coming September and October. These include health talks and health messages to public through interviews by media, short film competition on cardiac health, press release, etc. The Carnival and Global Embrace as well as the heart health drawing competition for school children, being the highlight of the activities, are tentatively scheduled on Sunday 2 October 2011, at Happy Valley Race Course.

Further details will be sent to members of the College in due course, and will also be available in the College web site.

Jump Rope for Heart Program (JRFH)

141 schools have registered for the Jump Rope for Heart program in the current academic year (2010-2011). Eight heart health talks and 15 school visits by expert teams were conducted at the schools. Very positive response was received.

The JRFH Rope Skipping Instructor Workshop was successfully held on December 2010 (Sunday) at TWGHs Sin Chu Wan Primary School. 115 teachers and elite skippers attended the workshop and learnt the techniques of teaching skipping skills to students, and received more information about the Jump Rope for Heart Program.

The JRFH Inter-school Rope Skipping Competition 2011 is scheduled on Saturday 9 July 2011 and Sunday 10 July 2011 at Lai Chi Kok Park Sports Centre. The team manager’s meeting cum lots drawing ceremony will be held on 14 May 2011 at the competition venue.
An attempt to set the Guinness World Record for the largest number of “single rope two persons skipping” simultaneously for 3 minutes, was the climax of the JRFH 10th Anniversary Celebrating Activities Series. It was successfully held on 30 September 2010 (Thursday) at 10:18am. 15,510 students from 97 primary and secondary schools joined the event. The JRFH Secretariat has sent all necessary materials and information to the official secretariat of the Guinness World Record. An official reply was received on 15 February 2011. Our application was rejected as only one participant per rope would be admitted for the skipping category of the Guinness World Record.

News from Committee

Paediatric Cardiology Chapter

A Scientific Meeting of Paediatric Cardiology Chapter was held on 10 February 2011 at the Hong Kong Medical Association, Dr. Li Shu Pui Professional Education Centre, Central. The meeting were well received with 15 participants, mostly paediatric cardiologists, attended the meeting. Dr. YAM Man Ching, Consultant Paediatrician of Prince of Wales Hospital, presented the topic on “What can be done in patients with refractory Kawasaki disease”.

Dr. YAM Man Ching
**Other Activities**

**Lecture on Adult Basic Life Support**

Upon invitation by the Hong Kong College of Family Physicians (HKCFP), Dr. PUN Chiu On represented the College to give a lecture on Adult Basic Life Support to candidates of the Conjoint Examination and students of Diploma of Family Medicine of HKCFP, on Saturday 25 March 2011. He also acted as advisor to its examination in adult cardiopulmonary resuscitation for the above candidates and students on Sunday 26 March 2011.

**Cardiology News**

**Adult Basic Life Support**

There are major changes and new points of emphasis in Adult Basic Life Support (BLS) in the 2010 American Heart Association Guidelines for Cardiopulmonary Resuscitation and Emergency Cardiovascular Care Science.

- Immediate recognition of sudden cardiac arrest (SCA) is to base on assessing unresponsiveness and absence of normal breathing.
- “Look, Listen, and Feel” removed from the BLS Algorithm.
- Encouraging Hands-Only (chest compression only) CPR for the untrained lay-rescuer.
- Sequence change to chest compression before rescue breaths (circulation-airway-breathing, i.e. CAB rather than ABC).
- Health care providers continue effective chest compression/CPR until return of spontaneous circulation or termination of resuscitative efforts.
- Increase focus on methods to ensure that high-quality CPR (compression of adequate rate and depth, allowing full chest recoil between compressions, minimizing interruptions in chest compressions and avoiding excessive ventilation) is performed.
- Continue de-emphasis on pulse check for health care providers.
- A simplified adult BLS algorithm.
- Recommendation of a simultaneous, choreographed approach for chest compressions, airway management, rescue breathing, rhythm detection, and shocks (if appropriate) by an integrated team of highly-trained rescuers in appropriate settings.

Members Section

Hong Kong Heart Foundation Cardiology Training Fellowship Programme

The College wishes to congratulate the following members for being awarded the Hong Kong Heart Foundation Fellowship for overseas training in cardiology this year.

Awarded Hong Kong Heart Foundation Fellowship: 2011/2012

Dr. CHAN Pak Hei, Michael, Member HKCC, Queen Mary Hospital
Dr. CHAN Ka Chun, Alan, Member HKCC, Queen Elizabeth Hospital

The College also wishes to advise the following update.

Granted extension of Hong Kong Heart Foundation Fellowship: 2010/2011

Dr. YIU Kai Hang, Member HKCC - his Hong Kong Heart Foundation Fellowship training has been extended for 6 months till June 2011.

New Members

The College welcomes the following new members:

Fellow:

1. Dr. CHAN Cho Him, Bobby, Paediatric Cardiologist in private practice
2. Dr. CHENG Yan Wah, Vinson, Associate Consultant, Department of Paediatrics & Adolescent Medicine, Tuen Mun Hospital
3. Dr. CHEUNG Wai Yin, Eddie, Paediatrician, Adventist Hospital, Hong Kong.
4. Dr. CHONG Wan Yip, Paediatrician, Union Hospital.
5. Dr. CHOW Pak Cheong, Medical Officer, Department of Paediatrics, Queen Mary Hospital
6. Dr. FONG Nai Chung, Associate Consultant, Department of Paediatrics & Adolescent Medicine, Princess Margaret Hospital
7. Dr. HO Yok Chiu, Associate Consultant, Department of Paediatrics, United Christian Hospital
8. Dr. HUNG Kei Wong, Senior Medical Officer, Department of Paediatrics, Our Lady of Maryknoll Hospital & Caritas Medical Centre
9. Dr. KWOK Ka Li, Senior Medical Officer, Department of Paediatrics, Kwong Wah Hospital
10. Dr. MAK Wai Yau, Daniel, Medical Officer, Department of Paediatrics & Adolescent Medicine, Princess Margaret Hospital
11. Dr. POON Kam Ha, Louisa, Part-time Paediatric Cardiologist, Department of Paediatrics, Queen Elizabeth Hospital.
12. Dr. SIU Chung Wah, Clinical Assistant Professor, Department of Medicine, The University of Hong Kong
13. Dr. WONG Kin Tak, Associate Consultant, Department of Paediatrics, Queen Mary Hospital
**Member:**

1. Dr. CHAN Ki Wan, Kelvin, Resident Specialist, Department of Medicine, Queen Mary Hospital
2. Dr. CHEN Hay Soon, Robin, Resident Specialist, Department of Paediatrics, Pamela Youde Nethersole Eastern Hospital
3. Dr. CHUI Ka Lung, Resident, Department of Medicine and Geriatrics, Tuen Mun Hospital
4. Dr. KWOK Sit Yee, Resident, Department of Paediatrics, Prince of Wales Hospital
5. Dr. MAK Kin Yan, Resident, Department of Paediatrics, Prince of Wales Hospital / Department of Paediatrics & Adolescent Medicine, Alice Ho Miu Ling Nethersole Hospital
6. Dr. TING Yan Wing, Daniel, Resident, Department of Paediatrics, Tuen Mun Hospital

**Affiliate:**

1. Dr. FUNG Ho Chuen

**Secretariat**

Ms Cary Chan has joined the Secretariat as clerical officer since 14 June 2010. She will assist our members and executive officers in the various activities of the College.
